

 More than 150 papers are expected to be orally presented or presented on exclusive poster sessions.

• 75 papers will be selected for full submission to special issues of major refereed journals (e.g., RMPD, ASTM Journal of Testing and Evaluation)

ORGANIZING COMMITTEE:

Jorge B. Soares, Federal University of Ceará , Brazil (Chairman) Francisco Thiago S. Aragão, Federal University of Rio de Janeiro, Brazil Gabriele Tebaldi, University of Parma, Italy Kamilla Vasconcelos Savasini, University of São Paulo, Brazil Luis Alberto Nascimento, Petrobras/Cenpes, Brazil

SCIENTIFIC COMMITTEE:

Gabriele Tebaldi, University of Parma, Italy (Chairman of Scientific Committee) Adalberto Leandro Faxina, University of São Paulo, Engineering School of São Carlos, Brazil Alan Carter, École de Technologie Supérieure, Canada Amit Bhasin, University of Texas, USA Audrey Copeland, National Asphalt Pavement Association (NAPA), USA Bagdat Teltayev, Kazakhstan Highway Research Institute, Kazakhstan Cédric Sauzeát, University of Lyon, ENTPE, France Dallas Little, Texas A&M University, USA Deividi Pereira, Federal University of Santa Maria, Brazil Ellie Hajj, University of Nevada, USA Eshan Dave, University of New Hampshire, USA Eugene Skok, Association of Asphalt Paving Technologists, International Society for Asphalt Pavements, USA Francisco Thiago S. Aragão, Federal University of Rio de Janeiro, Brazil Gaylon Baumgardner, Paragon Technical Services, USA Gerald (Gerry) Huber, Heritage Research Group, USA Gordon Airey, NTEC, England Hervé Di Benedetto, University of Lyon, ENTPE, France Imad Al-Qadi, University of Illinois, USA Jean-Pascal Planche, Western Research Institute, USA Jo Daniel, University of New Hampshire, USA John Harvey, University of Califórnia – Davis, USA Jorge Augusto Pereira Ceratti, Federal University of Rio Grande do Sul, Brazil Jorge Carvalho Pais, University of the Minho, Portugal José Leomar Fernandes Júnior, University of São Paulo, Engineering School of São Carlos, Brazil Juceline Batista dos Santos Bastos, Federal Institute of Ceará, Brazil Kamilla Vasconcelos Savasini, Polytechnical School – University of São Paulo, Brazil Kim Jenkins, University of Stellenbosch, South Africa Laura Maria Goretti da Motta, COPPE/Federal University of Rio de Janeiro, Brazil Lelio Brito, Pontifical Catholic University of Rio Grande do Sul, Brazil Leni Figueiredo Mathias Leite, Federal University of Rio de Janeiro, Brazil Liédi Legi Bariani Bernucci, Polytechnical School – University of São Paulo, Brazil Lucas F. A. Lima Babadopulos, University of Lyon, ENTPE, France Luciana Nogueira Dantas, IPR/DNIT, Brazil

Luis Guillermo Loria Salazar, University of Costa Rica, Costa Rica Makio Kayano, Japan Road Contractors Association (JRCA), Japan Manfred Partl, EMPA, Switzerland Murali Krisna, IT Madras, India Nader Tatabatae, Sharif University, Iran Navneet Garg, Federal Aviation Administration, USA R. Michael (Mike) Anderson, International Society for Asphalt Pavements, USA Reynaldo Roque, University of Florida, USA Richard Kim, North Carolina State University, USA Saied Solomons, Sabita (Southern African Bitumen Association), South Africa Sandra de Aguiar Soares, Federal University of Ceará, Brazil Shigeru Shimenu, Nippon Expressway Research Institute, Japan Silvia Caro, University of Los Andes, Colombia Suelly Helena de Araújo Barroso, Federal University of Ceará, Brazil Tien Fang (TF) Fwa, National University of Singapore, Singapore Tom Scarpas, TU Delft, Netherlands Verônica Teixeira Franco Castelo Branco, Federal University of Ceará, Brazil Yong-Rak Kim, University of Nebraska, USA

Wynand Steyn, University of Pretoria, South Africa

THEMATIC AREAS:

- Accelerated pavement testing;
- Effect of environmental changes on materials properties;
- In-situ property evaluation using non-destructive techniques;
- Instrumentation and monitoring of asphalt pavements;
- Interaction of the material with the environment during production, construction, use and demolition;
- New solutions and techniques to improve the environmental compatibility of asphalt pavements;
- Numerical modeling of materials and pavement structures;
- Pavement roughness and friction measurements;
- Performance testing and performance based specifications;

Luciano Pivoto Specht, Federal University of Santa Maria, Brazil

- Perpetual pavements;
- Recycling (new technologies, experiences, design);
- Re-use of secondary material in asphalt;
- Techniques for resilient asphalt pavements enduring extreme climatic and weather changes;
- Use of marginal materials in asphalt.

IMPORTANT DATES:

Abstract submission deadline: June 1st, 2017 Results by: August 3rd, 2017 Short paper submission deadline: September 1st, 2017 Final results: December 1st, 2017
