

# Act with integrity and contribute to society through technology and engineering

العمل بنزاهة والإسهام في بناء المجتمع عن طريق التكنولوجيا والهندسة

Nippon Koei respects the history and culture of each nation and region. We contribute to the sustainable development of societies through excellent technology and engineering appropriate for each region.

## About Us

- Japan's No.1 International Engineering Consultants
- Completed over 5,000 multi-disciplinary infrastructure projects in 160 countries during 70 years
- Oldest independent consulting firm in Japan, founded in 1946

## Roads

### Design and construction management:

- From trans-continental highways, high-capacity high-speed urban highways and viaducts to rural roads
- For enhancing the security of inhabitants and encouraging socio

Before and After the Construction of the Sindhuli mountainous Road, Nepal

## Tunnels

Tunnel engineering and engineering solutions:

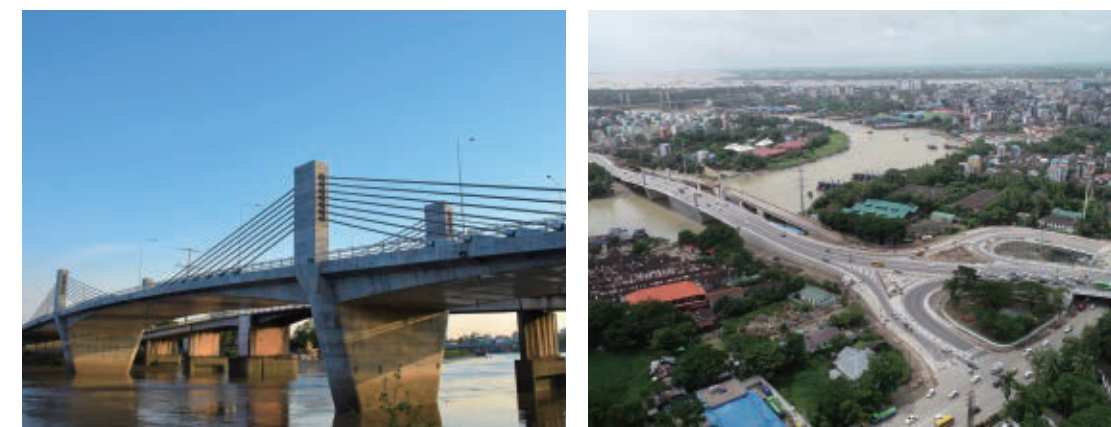

- To natural obstacles, offering total tunnel solutions
- For local economic development though new technologies

Our solution for the 6,260m long Hai Van Pass Tunnel, one of the 30 largest and most modern tunnels in the world, shortening the travel time from hours to 10 minutes, Vietnam

## Bridges

- Ranging from short-span and low-clearance bridges to long-span, high-elevation and structurally complex bridges crossing great rivers and straits

Dawbon Bridge, PC 3span Continuous Extradosed Bridge of 220m (60m+100m+60m) with Steel Pipe Sheet Pile Foundation crossing Upper Pazuntaun River, Myanmar

## Our Projects

### WORLDWIDE ROAD, TUNNEL AND BRIDGE CONSTRUCTION PROJECTS ENGINEERED BY NIPPON KOEI
