

# Wide-Area Preventive Road Closures – Initiatives in Metropolitan Areas –

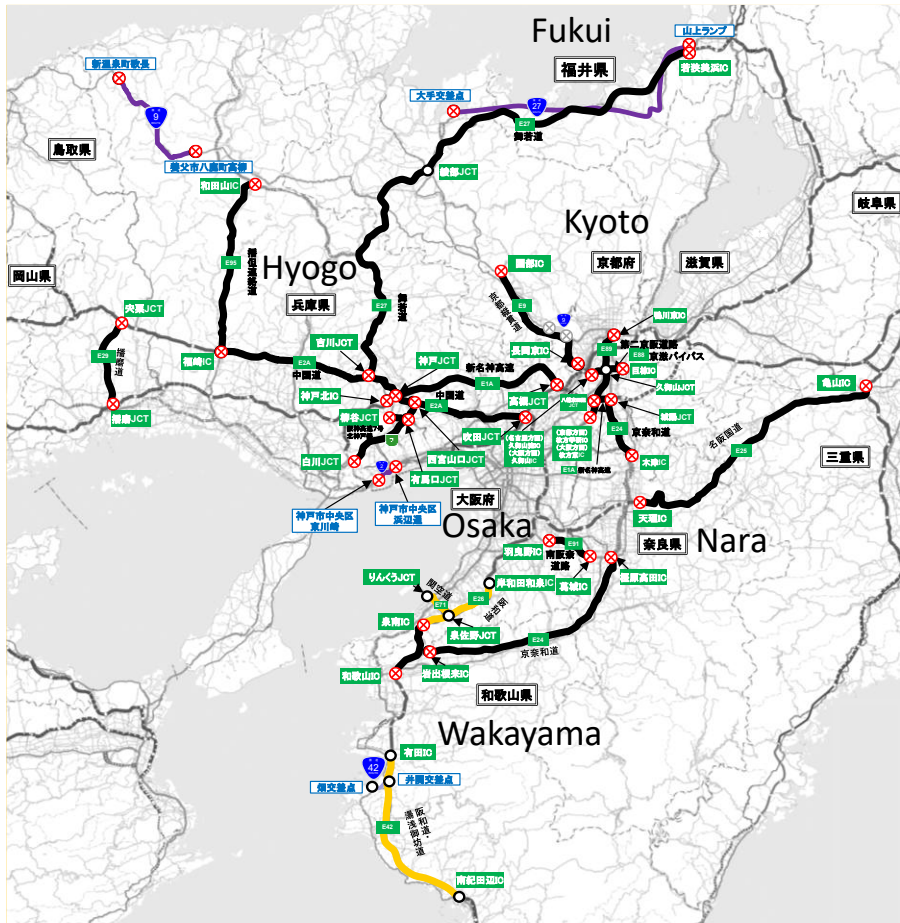

Fermetures préventives de la circulation  
sur un périmètre étendu

– Dispositif appliqué aux zones métropolitaines –

## Wide-area Preventive Road Closures

During periods of extensive heavy snowfall across metropolitan areas, we implement wide-area preventive closures of the main road network.

- Preventive road closures enable concentrated snow removal  
⇒ Minimizing large-scale vehicle congestion and reducing closure times
