

# MINO BEST PROJECT AWARD

## Objective

The Mino Best Project Award was established in 2016 to recognize outstanding road and/or bridge projects which have recently been constructed in the Asian and Australasia region. The Mino fund was donated by the late Mr Sadamu Mino, who was the Association's 10th President from 1998 to 2000.

## Award Criteria

### I. Eligibility

Outstanding road and/or bridge projects which have recently been constructed in the Asian and Australasia region are eligible for consideration for the Mino Best Project Award. The Award will be presented to the owners of road and/or bridge projects selected by the Mino Best Project Award Committee from the nominated candidates.

#### There are two categories:

- high-volume road
- community road

#### In order to be considered for the Award, nominated projects must meet the following conditions:

- Category I (high-volume road) – high-volume expressways/major highways which contribute to the economic and social development in the region.
- Category II (community road) – community and rural roads which contribute to community and social development in the local region.
- Only projects which have been constructed in Asia and Australasia are eligible for consideration. Nominated projects must have been completed between August 2016 and July 2020 (i.e. up to four years prior to the deadline for nomination).
- Both members of REAAA and non-members can nominate a project. However, all nominations must be lodged by a member of the REAAA Governing Council.
- The Awards will be presented to the owners of the winning projects during the **16th REAAA Conference**, to be held in Manila, Philippines, in March 2021.
